

SZCG Policy RE: Placement of Memorial Structures

The South Zone Community Garden (SZCG) is located on leased property. Occasionally requests may be received to place memorial structures such as benches on the leased site. The Board has determined that:

- Memorial structures such as benches may be placed on the garden site provided that:
 - the party requesting the placement of a memorial structure (the requesting party) makes a written request to the SZCG setting out the specifics of its request.
 - all costs associated with the purchase and installation of the memorial structure are paid by the requesting party.
 - the structure is placed in a location approved by the SZCG Board.
 - the structure and its means of installation are acceptable to the SZCG Board.
 - if the lease on the SZCG's site expires and removal/ relocation of the structure is necessary, SZCG has the option to move the structure or, where practical, to ask the requesting party to remove the structure.
 - the SZCG Board has the right to remove the structure if it falls into disrepair and the requesting party is, for any reason, unable or unwilling to make the needed repairs.
 - the SZCG is not liable for any damage to the structure.

Approved by the SZCG Board November 2, 2105.
